

DMG 4269 - DISSERTATION

- The student can select a research area of his/ her study interest for the dissertation. Both the Institutional and University Supervisor can assist the student throughout his/her research in selecting a relevant topic, highlighting the issues/problems worthy of analysis, accessing literature etc.
- In order to be fair, in the case of students assigned to research organizations it is extremely important that the work submitted be different from that he/she is working on.
- Students should pay considerable attention on the size of the dissertation. It should be necessarily typed only on one side of each A4 sheet. Typed setting should have 1.5 spacing between lines with a font size of 12. The dissertation should be within the range of 10,000-15,000 words.
- The Dissertation will be counted as two course units
