

Introduction

The practical relevance of sociology in development activities is widely recognized throughout the world today. Graduate studies in sociology essentially contributes to creating sociologists with analytical and applied skills.

The Department of Sociology of the University of Colombo has the expertise necessary to conduct such an advanced graduate studies program. The University of Colombo, the oldest metropolitan university in the country is able to extend its services to a wide range of students coming from within and outside the city.

This course is specially intended to advance the theoretical knowledge of the students with regard to sociological issues.

Course Objectives

- To provide the student with a sound knowledge of theoretical and methodological aspects of sociology
- To improve the students' ability to critically analyse society in its various dimensions.
- To develop sociological insights into current social environments and problems

Course Structure & Duration

The course will be taught over a period of two academic years. The candidates are required to take eight courses. The ninth unit will be the research design formulated as a reading course for which the candidates are expected to work with the supervisor assigned. In the Second year of study students are expected to write a dissertation on a selected topic.

A candidate shall not be permitted to sit for the final examination unless she/he has followed at least 80 percent of the classes held. Classes will be held in the evening and on weekends.
