

# International Conference on Geography and Global Sustainability ICGGS 2021

09<sup>th</sup> & 10<sup>th</sup> of December 2021 (Virtual)

Organized by the Department of Geography, University of Colombo, Sri Lanka

## Panelists

**Keynote; Dr. Ananda  
Mallawatantri**  
International Union for  
Conservation of Nature (IUCN),  
Sri Lanka

**Professor  
A. Pitawala**  
University of Peradeniya,  
Sri Lanka

**Senior Professor  
Mervin Dharmasiri**  
University of Kalaniya,  
Sri Lanka

**Professor  
Amala De Silva**  
University of Colombo,  
Sri Lanka

**Moderator  
Dr. M.T.M. Mahees**  
University of Colombo,

**Please join with us:**

**Meeting ID:** 671 4713 3201  
**Passcode:** .F=ndWh5

## Keynote and Plenary Session FOUR

**10<sup>th</sup> December 2021**

12:00 – 13:35 (Sri Lanka Time) - virtual (Zoom) event

## How can we protect Mother Nature in Sustainable Development?

### About the session;

It is believed that change is evolutionary and good for the improvement and development from the point beyond where we are standing today. However, the change caused by development have shown negative impacts on natural environment where the sustainability of the natural environment is at risk. It is also said that there is a balance among every component of the environment and humans are just a part of it. The impact on environment have already backfired on humans where climate change and global warming causes may disturbances to anthropogenic development. Development planners are therefore more concern about reducing the impact on environment due to the development activities. Moreover, they are focused on preservation and conservation of natural environmental process for better sustainability.
